

Art on Purpose

BETSY WIERSMA

Celebrate Every Day With Wearable Art!

As an artist of inspirational Art on Purpose, I believe that the positive and healing power of ART is AMAZING and that Art Will Save the World! All of my customers from across the US express their own unique self by wearing my art clothing. They tell me that it makes them "feel special" and that they sense the positive affirmations, possibilities and LOVE that infuses every piece. I partner with a manufacturer that does short runs of artists' work on multiple products, and I am happy to share these Art on Purpose products with you and your customers.

The process is easy:

- You choose what pieces that fit your customers and their style
- You pick pieces of artwork that has your favorite colors, theme and vibe
- Wholesale is based on total number of items of any style
- Lead time is 3-4 weeks to exit the factory

How It Works

You are ordering directly from the manufacturer and made on demand for you. The fabric is vegan, the inks water-based and the garments will not fade, shrink or wrinkle. When you are ready to order, I am happy to connect you to our wholesale portal where you will set up your ship to address and payment. Due to the on-demand manufacturing, there are only returns due to a factory flaw.

You can search the portal by collection or style to find exactly what you want. And new artwork will be released to keep growing the collection and the FUN!

Please take a look around my artwork and clothing designs and let's create something great together!
